A superb web site with complete information from the oldest and best MLD school in the world.

'The Dr. Vodder School first brought Manual Lymph Drainage to the USA at a conference in New York in 1972, when Prof. Hildegard Wittlinger presented this unique method that affects the lymph system. We were the first to establish a training program in MLD/CDT in North America with classes in the late 1970's. Classes have been taught since then in the USA and Canada by certified instructors, teaching the original Dr. Vodder method. We held the first complete training in CDT for lymphedema treatment in Vancouver, BC in 1993. Our School was officially founded that same year in North America. We now teach in many countries around the world...' *Robert Harris, School Director*
