

PTS PARTS LIST

How to replace the pressure sensor: The pressure sensor is very durable under normal use. Avoid excessive twisting or creasing or stress and it should last for thousands of uses.

⚠ CAUTION: If replacing the pressure sensor grasp the first ¼ inch of the sensor strip base closest to the socket where the metal pins are. With the other hand grasp the 3-pin black female socket firmly. Do NOT grasp the Velcro® cover or the socket may come out. Now pull firmly straight outward without twisting. More sensor replacement details are found in the downloadable User Manual under topic **H. CLOSING PROGRAM & STORAGE**.

⚠ WARNING: The sensor connector socket must be held firmly. Never hold the wrapped Velcro® cover, as the socket may easily break out of the Velcro® cover. The socket is attached by tiny wires to the cable inside the cover that will break if excessive stress is applied.

Replacement parts: **These items included in Silver Kit** (Prices guaranteed through 9-30-2010)

* Optional components. The items listed below in gray are NOT included in the Silver basic kit.

Pressure Sensor 1 lb cap. (8" length)	\$ 29.00 ea.	- for all Kits, fits array
*Pressure Sensor 1 lb cap. (6" length)	\$ 32.00 ea.	- for all Kits, fits array
*Pressure Sensor 1 lb cap. (4" length)	\$ 32.00 ea	- for all Kits, fits array
*Pressure Sensor 1 lb cap. (2" length)	\$ 32.00 ea	- for all Kits, fits array
*Pressure Sensor 25 lb cap. (8" length)	\$ 39.00 ea	- for custom measurement applications
*Pressure Sensor 100 lb cap. (8" length)	\$ 39.00 ea	- for custom measurement applications
USB Wire Cable & 30" Black Velcro® strap	\$ 81.00 ea	- Color = black; Sensor extra
Protective cable sheath available in Neon Green, Yellow, Blue, Black or Orange. \$10.00 each. Ask for current availability.		
*Dual-sensor wire cable for standard sensors	\$129.00 ea	- Fixed wire cable ass'y for Gold Kit only
Calibration Weights for basic cal. (2 pieces)	\$ 15.00 set	- Appearance may vary
*Calibration Weight Set for Platinum Kit (for linear calibration at multiple test values) or Multi-User Kit (MU1).		
(Consists of (1) 10g, (2) 20g, equiv. weights)	\$ 21.00 set	- Appearance may vary
User Spec Sheet (4 copies, 2 sided, color)	\$ 1.00 pack	- Better: Free online download
Software Disc (includes 1 Spec. sheet)	\$125.00 ea	- If a registered user, please contact us for replacement guidelines. If upgrading from Single-point to Dual-point or Multi-user contact us. Not available separately.
Storage Box	\$ 22.00 ea	- Fits all Kits.
*User Manual (duplex, color)	\$ 9.00 ea	- Better: Free online download
*Multi-sensor Pair wire cable; add # of sensors	\$139.00 ea	- Quick-connect cable ass'y, custom Not Yet Avail
Each individual quick connect sensor	\$ 42.00 ea	- up to any number of quick-connect sensors (please specify size). Intended for Platinum Kit. Can be used on all Kits. Call with desired application.
Design a strip of 2, 4, or 6 or more quick-connect sensors of 4, 6, or 8 inches length in a configuration you want.		
*Multi-sensor selectable switching array cable	\$189.00 ea	- custom configured; adapts to any kit.
Choose up to 6 each sensors of 4, 6, or 8" sensors length @\$32.00 ea. Requires a quick-connect wire cable.		
Design a strip mount of up to 6 hard wired sensors of 4, 6, or 8 inches length in a configuration you request.		
*Special long sleeved draw-up sensor price quoted on request for pulling up through a garment or bandage.		

Multi-sensor selectable switching array note: Only 1 measurement is visible on the main PTS display at a time. A small adapter box uses a dial switch knob to select the numbered sensor to view on the display. Use Multi-sensor for rapid pressure comparison tests on bandages and garments or hands, etc.

NOTE: Prices subject to change without notice. Please consult current price list and terms of sale online.

Shipping is charged at USPS Priority Mail postage rate, plus \$5.00 per order under 2 pounds. Add \$8.90 for each additional 16 oz or any portion thereof). **RUSH SHIPPING** via UPS Next Day Air available for additional charge.
